APPROVED  
John R. Edwards

THIS BOOK/TOOL IS  
DEDICATED TO  
A POLITICIAN,  
A DEMOCRAT,  
SPEAKER OF  
THE HOUSE!  
AN AUTHOR  
WHO CREATED BOOKS  
WITH BIG TYPE THAT  
SOLD WELL!

# FOREWORD

I believe the American dream, in America. Work; working harder; working smarter can lead to amazing outcomes. Government may not help.

**This eBook is ISBN**

**9780991433766**

**There is no other document form  
(Hardcover, softcover or audio)**

**This is a political tool that may not be truthful,  
misspelled or a lie, but political! Some pages of  
2/page are appended to support preparation of a  
political handout!**

# AUTHOR

John R. Edwards was born in 1932. Before FDR! Before the New Deal! Before Pearl Harbor! Before World War II! He was born a free baby. He could use the N-word, but not so much the F-word. Currently, the F-word is used way too much; it is protected speech, as art or a first amendment right. The N-word is suppressed! It still shows ignorance and an inability to express oneself. (Does the first amendment require correct spelling or bar obscenities?) John went to an Illinois Normal college before moving on to Physics at Iowa State. A student job with the Ames lab enabled him. Then, on to the Generous Defense Company in San Diego. An interesting and rewarding place to work with a devoted group of great people!

# WARNING

This collection of bitches, complaints, and remarks is political. While the truth may be given, it is also abused, distorted, and even ignored. There has been zero effort to verify the truth of any statement. As

you may recall, 2012 showed that a good lie, repeated and promoted by the liberal media, is better than the truth. Mitt's a good guy! He makes money, and he has five sons! He donates to his

Church! But, this lady once worked at some company, died of cancer! While children, in Chicago, New York and Los Angeles were killed by gun violence! Of course, it was Mitt's fault! Not Joe Biden's! Not Harry's! Not Nancy's! Obama's? Who is the most unreported and unknown!

# FORMAT

Grab attention with short and to the point comments. Such comments are usually presented as a list. A list is very hard to read and does not do justice for any remark. Here, each bitch is given one page which makes for lots of pages. Each page is easy to read, enjoy or think about as a new perspective.

## WEBSITE

At “retortsmplyjohn.com” I sell e-books (PDF files). The old ones are a few dollars. Just send dollars or checks to John Edwards! Free copies made for the 2018 and 2020 election campaigns are available for free! My business experience is this is a hobby! Each version is a political tool. Statements are simple, cheap, probably untrue and try as hard as I can, biased.

Sale of an old Obama file may support the websites, [smplyjohn.com](http://smplyjohn.com) and [retortsmplyjohn.com](http://retortsmplyjohn.com).

Prices are minimal or free, but making some money causes bees to hum and birdies to sing. I never let facts alter a stick'em remark! California is a one party socialist state. The Democrats run the state top to bottom! The gas tax, the income tax, the potholes, the wildfires, the schools, the bullet train, the illegals on welfare and medical are all the Democrat's mess!
